Institution	TONW HALL OF ALMADÉN & TONW HALL OF CHILLON
Local / Original ID Number	001.001.001.10
Type of Object	Landscape, Routes, Transport - other transport

DESCRIPTION

Short description	The road that starts from the cart gate at the Cerco de Buitrones has as its destination the building of the Royal Shipyards of Seville. By this road, and by three possible alternatives, depending on the need for rapid movement and the weather conditions, the duly packed mercury zacas were transported.
Measures	The maximum total length of the road is 315km and it runs through the autonomous communities of Castilla-La Mancha, Extremadura and Andalusia
Materials	Dirt road cobbled in certain parts. In the initial part, there are four bridges with masonry that were built following the

methods of the master builders who worked at the mine.

Dating 18th century

Author / Producer

Illustrations

Original use	Transport road
Present use	Green Way
Original location	
Present location	

STATE OF CONSERVATION

History of conservation:	During the period when it was frequently travelled, the bridges and outlines were repaired.
