|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Original use</b>      | The outside caliper was used for making measurements in the turning production process. The described object was used as one of the devices in the Idrija Mercury Mine electro-machinery plant, where the lathe also operated – among other machines.                                                                                                                                                                                                                                                                                                    |
| <b>Present use</b>       | The outside caliper is being preserved, secured and presented as an important monument of Idrija technical mining heritage with exceptional universal values. The described object is a part of the mining collection of the Idrija Municipal Museum. It displays machines and devices, tools and equipment, which were necessary for working in a pit or in outdoor plants. Visitors can view it within the permanent museum display exhibition in the Francis’ Shaft building. It can also be used for different types of mercury heritage promotions. |
| <b>Original location</b> | Idrija Mercury Mine, electro-machinery plant (opposite the Bašerija).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Present location</b>  | Francis’ Shaft building (upper showroom).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## STATE OF CONSERVATION

|                                 |                                                                                                          |
|---------------------------------|----------------------------------------------------------------------------------------------------------|
| <b>History of conservation:</b> | Additional interventions on the described object are not necessary. Security of the premises is ensured. |
| <b>Present state</b>            | good                                                                                                     |
| <b>Necessary activities:</b>    | Regular seasonal maintenance.                                                                            |
